## Context/Background

Children’s Health Ireland (CHI) is leading on the clinical and operational transformation of acute paediatric healthcare and consists of hospitals at Crumlin, Temple Street and Tallaght. The three children’s hospitals and CHI’s office transitioned from four separate, independently governed entities into one new single organisation effective on 1st January 2019 to govern and operate paediatric services in Dublin.

This new organisation will operate as a single service across the existing locations of Crumlin, Temple Street, Tallaght and the CHI office before transitioning to the new facilities at the two paediatric outpatient and urgent care centres at Connolly and Tallaght Hospitals and the new children’s hospital on the campus shared with St James’s Hospital.

The Minister for Health appointed a new Board in September 2017, initially on an administrative basis to support CHI’s Chief Executive and management team in the planning and implementation of the Children’s Hospital Programme and to prepare for the transition of services from the existing three children’s hospitals under the governance of the legally established Board, which commenced on 1st January 2019.

Children’s Health Ireland Programme is a major programme of work led by CHI, focused on transformative service change to enhance services for children and young people, to integrate the three existing hospitals, while maintaining existing and new services, ensuring patient safety and quality until transition is complete. It will:

- Operationalise an integrated acute paediatric healthcare network
- Act as client for the government funded capital project to build the new children’s hospital and the two paediatric outpatient and urgent care centres at Connolly and Tallaght Hospitals, and a separately funded research and innovation centre
- Act as client to a major ICT programme to digitize paediatric healthcare
- Commission, transition to and operate the new children’s hospitals and the two paediatric outpatient and urgent care centres.

The new children’s hospital will be at the centre of a new model of care with two new Paediatric Outpatients and Urgent Care Centres (OPD & UCCs) central to the delivery of this new model of care. The POPD & UCCs will be based at Connolly Hospital on the North side of Dublin (due to open Summer 2019) and one at Tallaght Hospital on the South side of Dublin (due to open 2020). The addition of the new OPD & UCC, together with the opening of the new hospital in time, will transform how healthcare is delivered to children in Ireland.

**Reporting Arrangements**

This post will report to the Dietitian Manager in Charge III

**Key Working Relationships**

The post holder will work closely with all members of the

- Multi-disciplinary team in the Haematology and Oncology unit, which includes Consultant Paediatric Haematologists and Oncologists, clinical nurse specialists, psychology, social work, play specialists.
- Staff within the nutrition and dietetic department
- Ward staff which includes other medical consultants, nursing staff, health care assistants, administration and other HSCP colleagues such as pharmacy, physiotherapy, occupational therapists, speech and language therapists.
- Catering staff, diet kitchen chefs and staff and the formula room.

*Please note that this list is not exhaustive and key working relationships will change as the project moves from service development, construction completion, commissioning & transitioning to steady state.*

**Purpose of the Role**

The post holder will work with the haematology and oncology team to provide nutrition and dietetic services to the haematology and oncology service, including St. Johns Ward, Bone Marrow Transplant Unit and the outpatient service (HOOP’s clinic) in CHI at Crumlin.

**Principal Duties and Responsibilities**

**Professional Duties and Responsibilities:**

**Clinical Duties**

- As a member of the MDT, Nutritional assessment and dietetic intervention of clients referred to the department will be conducted using the Nutrition Care Process Model (NCPM) as part of the patient care pathway.
- Liaise with Consultants and other members of the multidisciplinary team, formula room and catering staff regarding the co-ordination of dietetic intervention.
- Attend and participate in ward rounds and multidisciplinary team meetings to promote integrated patient care.
- Consult with parents/guardians/clients regarding treatment, planning and nutrition education as appropriate.
- Monitor and evaluate dietetic care plans and interventions.
- Develop clinical protocols and guidelines that are reflective of evidence based practice.
- Education, training and development in the specific clinical area and act as a resource for other members of staff and other health professionals.
- Participate in audit, research and other quality improvement projects to maintain a high quality service.
- Provision of clinical nutrition and dietetics services to other clinical areas/specialities supported by the dietetic department, when required.

**Administrative Duties**

- Responsibility for daily administration duties and overall caseload management for clinical area.
- Record activity statistics, prepare reports and engage in service planning activities in consultation with the Dietitian Manager.
- Positive representation of the clinical nutrition/dietetics service through effective communication and engagement of other disciplines.
- Compliance with CHI HR policies with respect to all types of leave, to ensure the clinical nutrition and dietetics service needs are met.
- Compliance with Occupational Health and Safety regulations within the workplace at all times.
- Compliance with all relevant statutory local and hospital regulations and policies at all times.
- Comply with department policies regarding clinical documentation practices.

**Education Duties**

- To contribute to the Dietetic Department In-service programme and engage in career and personal development planning in collaboration with the Dietitian Manager.
- Provide leadership to new staff or basic grade Dietitian’s, through the process of professional supervision, mentoring and tutoring with a view to enabling the dietitian to identify areas for skill development.
- To maintain standards of professional knowledge through personal study and attendance at appropriate courses and conferences.
- Manage, participate and play a key role in the practice education of student Dietitians.

**Quality Improvement**

- To undertake quality improvement activities to determine the effectiveness of clinical nutrition/dietetics for the assigned clinical area.
- To participate in department quality improvement activities.

The above is not intended to be a comprehensive list of all duties involved and consequently, the post holder may be required to perform other duties as appropriate to the post which may be assigned to him/her from time to time and to contribute to the development of the post while in office.
**Eligibility criteria, qualifications and experience**

**Essential Criteria:**
Indians who qualified before the 31st October 2014 and have been engaged in the practice of the profession in the Republic of Ireland for a minimum of 2 years fulltime (or an aggregate of 2 years fulltime), between 31st October 2009 and 30th October 2014 must:

1. Be registered as a Dietitian by the Dietitians Registration Board at CORU.
   Or
2. Hold a qualification in Dietetics recognised by the Dietitians Registration Board at CORU, see www.coru.ie
   And
3. Have a minimum of 3 years post-graduate clinical experience.

**Desirable Criteria:**

- Previous experience in working with children and their families in paediatric services in acute secondary or tertiary services.
- Knowledge of paediatric nutrition and dietetics and practical application of therapeutic diets and nutrition support in paediatrics.
- Clinical experience of working in paediatric haematology and oncology.
- Demonstrated commitment to provision of evidence based, high quality dietetics services and continuing professional development.

---

**Knowledge, Skills & Competencies**

**Leadership & Direction**

- Develops networks and communications systems to ensure that they are fully informed in a dynamic and challenging environment.
- Is an effective leader and a positive driver for change; transforms the vision into a framework and structures for moving forward.
- Understands the challenges of leading a complex systems change.
- Balances change with continuity – continually strives to improve service delivery, to create a work environment that encourages creative thinking and to maintain focus, intensity and persistence even under increasingly complex and demanding conditions.

**Working With & Through Others - Influencing to Achieve**

- Has significant experience in engaging with healthcare organisations.
- Demonstrates the ability to work independently as well as work with a wider multidisciplinary / multi-agency team in a complex and changing environment.
- Is persuasive and effectively sells the vision; commands attention and inspires confidence.
- Sets high standards for the team and puts their work and the work of the organisation into meaningful context.
<table>
<thead>
<tr>
<th>Has excellent influencing and negotiation skills.</th>
</tr>
</thead>
</table>

**Managing & Delivering Results**

- Places strong emphasis on achieving high standards of excellence.
- Commits a high degree of energy to well directed activities and looks for and seizes opportunities that is beneficial to achieving organisation goals.
- Perseveres and sees tasks through.
- Champions measurement on delivery of results and is willing to take personal responsibility to initiate activities and drive objectives through to a conclusion.

**Critical Analysis & Decision Making**

- Has the ability to rapidly assimilate and analyse complex information; considers the impact of decisions before taking action; anticipates problems.
- Recognises when to involve other parties at the appropriate time and level.
- Is willing to take calculated risks in the interests of furthering the reform agenda.
- Makes timely decisions and stands by those decisions as required.

**Building Relationships / Communication**

- Possesses the ability to explain, advocate and express facts and ideas in a convincing manner, and actively liaise with individuals and groups internally and externally.
- Is committed to building a professional network to remain up-to-date with and influence internal and external politics.
- Is committed to working co-operatively with and influencing senior management colleagues to drive forward the reform agenda.
- Has a strong results focus and ability to achieve results through collaborative working.

**Personal Commitment and Motivation**

- Is personally committed and motivated for this complex role.
- Demonstrates a strong willingness and ability to operate in the flexible manner that is essential for the effective delivery of the role.
- Demonstrates a commitment to further education in health services management.

**Health & Safety**

These duties must be performed in accordance with the hospital health and safety policy. In carrying out these duties the employee must ensure that effective safety procedures are in place to comply with the Health, Safety and Welfare at Work Act. Staff must carry out their duties in a safe and responsible manner in line with the Hospital Policy as set out in the appropriate department’s safety statement, which must be read and understood.
### Quality, Risk & Safety Responsibilities

**It is the responsibility of all staff to:**

- Participate and cooperate with legislative and regulatory requirements with regard to Quality, Risk and Safety.
- Participate and cooperate with Children’s Health Ireland Quality and Risk and Safety initiatives as required.
- Participate and cooperate with internal and external evaluations of hospital structures, services and processes as required, including but not limited to:
  - National Standards for Safer Better Healthcare
  - National Standards for the Prevention and Control of Healthcare Associated Infections
  - HSE Standards and Recommended Practices for Healthcare Records Management
  - HSE Standards and Recommended practices for Decontamination of Reusable Invasive Medical Devices (RIMD)
  - Safety audits and other audits specified by the HSE or other regulatory authorities.
- To initiate, support and implement quality improvement initiatives in their area which are in keeping with the hospitals continuous quality improvement programme.

**It is the responsibility of all managers to ensure compliance with regulatory requirements for Quality, Safety and Risk within their area/department**

### Specific Responsibility for Best Practice in Hygiene

Hygiene in healthcare is defined as "the practice that serves to keep people and the environment clean and prevent infection. It involves preserving one’s health, preventing the spread of disease and recognizing, evaluating and controlling health hazards.”

- It is the responsibility of all staff to ensure compliance with hospital hygiene standards, guidelines and practices.
- Department heads/ managers have overall responsibility for best practice in hygiene in their area.
- It is mandatory to complete hand hygiene training every 2-years and sharps awareness workshops yearly.

### Competition Specific Selection Process

Applicants will be shortlisted based on information supplied in the CV and covering letter submitted. Applications for this post **must** be accompanied by a covering letter, setting out relevant experience that illustrates how the essential criteria listed above is met. The criteria for short listing are based on the requirements of the post as outlined in the eligibility criteria and/or the knowledge, skills and competencies section of this job specification.

The closing date for submissions of CV’s and letter of application is Thursday 8th August @ 5pm. Applications must be completed through HR Talent Recruiter. **Applications will not be accepted through any other method.**
For informal enquiries, please contact Fiona Ward - Dietician Manager: fiona.ward@olchc.ie

</tbody>
</table>

Positions remunerated at or above the minimum point of the Grade VIII salary scale (€67,135 as at 01.01.2019) are designated positions under Section 18 of the Ethics in Public Office Act 1995. Any person appointed to a designated position must comply with the requirements of the Ethics in Public Office Acts 1995 and 2001 as outlined below;

A) In accordance with Section 18 of the Ethics in Public Office Act 1995, a person holding such a post is required to prepare and furnish an annual statement of any interests which could materially influence the performance of the official functions of the post. This annual statement of interest should be submitted to the Chief Executive Officer not later than 31st January in the following year.

B) In addition to the annual statement, a person holding such a post is required, whenever they are performing a function as an employee of the HSE and have actual knowledge, or a connected person, has a material interest in a matter to which the function relates, provide at the time a statement of the facts of that interest. A person holding such a post should provide such statement to the Chief Executive Officer. The function in question cannot be performed unless there are compelling reasons to do so and, if this is the case, those compelling reasons must be stated in writing and must be provided to the Chief Executive Officer.
